PREVENTS ENTANGLEMENT

New Turn Believed To Have Clarified Issue Involving Italy and Ethiopia

By The Associated Press

WASHINGTON Sept 4 — The Standard Vacuum Oil company's cancellation of a gigantic Ethiopian oil concession was believed today to have ended all chance of the United States entanglement in the Italian-Ethiopian dispute.

Secretary Hull's diplomatic maneuver in persuading the firm to drop its plans for African exploitation was credited by informed observers with having clarified issues in the controversy between Italy and the Abyssinian empire. These observers also saw the move as a bold stroke destined to aid Great Britain and other European nations in their attempts to calm the troubled East African scene.

Rachel, who has spent time in correctional institutions in Columbus and Allerton, Ill., was sentenced from Mansfield for house-breaking.

She is also known to police as Betty Lee Thomas and Betty Lee Stifler. Her confinement paper gave Belleville, O., as her home.

The girl, considered a "dangerous" participant in a baseball game," Mrs. Thomas, who is a reformatory supervisor, said yesterday. "After

CRESTLINE Sept 4.—Nicholas Bixby, 84, former Crestline resident died at his home in Mansfield Tuesday following a short illness.

# Harding Grid Candidates Settle Down To Serious Drill

TEN DAYS ARE LEFT BEFORE OPENING TILT FOR PRESIDENT TEAM

Only One Week of Running Plays Available, Fundamentals on Menu This Week

It may be weeks before the first Junior High football game at 4:30 tomorrow afternoon can be seen after the fall practice.

Practice periods in the morning and afternoon were devoted to more fundamentals, exercises and drill in a wide variety of fundamental gridiron art. Games were divided into three parts, and therefore equal a day's serious business of training. Hartling, Froehl, and others not yet on.

More fundamentals.

More of the same thing will be on the menu through Friday, Coach Carl Kramer said. A few minutes of scrimmaging may be held Saturday afternoon but the remainder of this week's training periods will be devoted to instruction in running, passing and ball carrying for the break and blocking and charging for the line. The new candidates will get a chance to do their stuff.

One with all available in which to run and perfect plays for the opening encounter here Sept. 14 with the Fox. The University team opening school next week will permit only one practice a day.

The Presidents will be out to defeat the fifth team this year after the visitors' one-sided victory last season. A determination to start the season with a win over an old foe should result in candidates buckling down to the serious work next week. With only five practice periods in which to shape a starting machine Kramer will not bother with any players who do not have a proper attitude toward their work.

**Stadium Preparations**

All practice sessions this year will be held at the Central Junior High school playground instead of the Silk Mill field. It is believed the playground is in good condition now and quickly accessible for Harding players. More than a half hour was out from practices last season in the long trek up and down the Silk Mill field. Harding players never relished the trip, whether walking or riding.

Practices on the Central Junior High playground will tend to have a beneficial effect upon players and give downtown coaches a better chance to watch Coach Kramer's box in action. It will remain uncertain on whether the opening game will be played on the new athletic field at the head of West street or at the fair grounds. Although work is progressing rapidly on the new stadium fence to enclose the football field has not yet arrived.

Notable among the early comers in the Harding squad are the return of George Conroy and Bob Ferguson to the backfield. Conroy, a senior who played end last season, has been working near the center of the line in the practices. A group of Harding boys hold thin summer on a Vernon Heights field. He is fast and can pick pretty of power in his drives.

Howard Hartman of Sidney, best of the Harding coaching staff to arrive was to be with the squad today. He returned to Marion yesterday afternoon and spent some time watching the candidates go through their exercises. In will model games and Bill Williams in making the preparation of a fast team for Harding's opening game.

**MT. GILEAD GRID CANDIDATES REPORT**

MT. GILEAD Sept. 4—Preparations for the opening of the football season were begun here Tuesday when Coach Tommy Bender held the first practice session for the high school candidates. Fourteen of the 1934 squad were back.

Veteran members of the squad are Bob Payne, Bob Richardson, Stu Stover, Bill Bonacker, Bill Hart, Leo, Carl Gordon, Cecil Allcock, Dean Johnson, Franklin Dennis, Francis Knob, Phil Weiland and Melvin Geiger and Earl Blayney. A number of promising freshmen are out and are expected to give some of the veterans a battle for their positions.

Four regulars were lost by graduation but the prospects are bright according to Bender who said he expected to have the best team his out in the field in several

Washington State will rank high. Only five men by grading low and having a great back to stand on the chief credit of Stanford which had a great season but took a slide. The team will be heavier this year than last. A passing attack which was taught the Indians last year but not used in play will be thrown in for good measure according to Coach Thorpe. He is planning to place Bill Phillips, sensational freshman star in the backfield of Frank Albritton's place to give the Indians an effective passing attack along with what undoubtedly will be a great running attack.

California where Stan Albion in the new coach in place of Noisy Fall, in vain will be on of the strongest teams in the conference. Probably the only one who doesn't say such things about the California prospects is Albritton himself. He says the team will be inexperienced and up against a tough schedule.
